Experience

USAMilitaryMedals / Lead Frontend Web Developer

October 2010 -October 2021, Milwaukie, OR

Responsible for identifying, delegating, and fixing issues on multiple websites

Responsible for developing new web applications for ezrackbuilder.com

I maintained and developed new features and tools for multiple internal applications, including inventory forecasting applications, tools for tracking sales from over 100 physical touch screen kiosks.

Collaborated with designers to optimize the user experience in all our web applications.

Worked with multiple complex APIs to accurately display and transfer data across multiple platforms.

Built, installed, and provided technical support for all our touch screen kiosks around the world.

Education

Hood River Valley High School / High School Diploma

2004 - 2007, Hood River, Oregon
